

## The Saint Hotel

194 East Bay Street Charleston, South Carolina

Hospitality

This 45 room boutique hotel is on East Bay Street in downtown Charleston. The hotel includes 30 valet parking spaces utilizing an automated lift system. The project includes a ground floor lobby with bar and support spaces and drive through guest drop-off area. This site is very constrained with streets on three sides of the building making the site unique. The classic character and scale of the design, which required Board of Architectural Review approval, fits in with the context of the historic buildings along East Bay Street.
